Earthquake:
Stay Safe, Stay Ready!

Objectives:

After completing this chapter, you will be able to:

- ✧ Identify earthquake hazards in your school and community.
- ✧ Understand the importance of safe building practices.
- ✧ Recognize and suggest ways to repair unsafe structures.
- ✧ Secure furniture and hazardous items to prevent injuries.
- ✧ Practice safety habits at home and in school.
- ✧ Locate emergency exits and safety equipment.
- ✧ Prepare a basic emergency supply kit.
- ✧ Participate in earthquake drills and follow safety procedures.

ARE YOU PREPARED?

The key to effective disaster prevention is planning:

- ✧ Know the earthquake hazards in your area.
- ✧ Follow structural design and engineering practices when constructing a house or building.
- ✧ Evaluate the structural soundness of the buildings and houses; strengthen or retrofit if necessary.

Prepare your homes, workplaces, or schools:

- ✧ Strap or bolt heavy furniture/cabinets to the walls.
- ✧ Check the stability of hanging objects like ceiling fans and chandeliers.
- ✧ Breakable items, harmful chemicals, and flammable materials should be stored properly in the lowermost secured shelves.
- ✧ Always turn off the gas tanks when not in use.

- Familiarize yourself with the exit routes and places where fire extinguishers, first aid kits, alarms, and communication facilities are located.
- Learn how to use them beforehand.

- Prepare a handy emergency supply kit with first aid kit, canned food and can opener, water, clothing, blanket, battery-operated radio, flashlights and extra batteries.

- Conduct and participate in regular earthquake drills.
